We engineer movement, we don't just manage shipments.

01

At Logistic Wind, logistics is an engineering science — not a passing commodity service.

We protect our clients' interests through strict adherence to local and international regulations at every one of the Kingdom's economic gateways. From advance technical review of documents to digital processing via the FASAH platform, every link is engineered to keep your business flowing without interruption.

For more than a decade, we have built our reputation on a single promise: goods that arrive on time, in full and in complete compliance — backed by a fleet with live tracking and smart bonded warehouses.

"We treat your supply chain as if it were our own — every link engineered."

Logistic Wind · Operating Philosophy

Engineering discipline that moves **your trade.**

02

We don't promise numbers — we prove through performance.
Capabilities built on compliance mastery, a comprehensive national
network, and operations that never stop.

Precise Compliance & Clearance

Mastery of the FASAH system and document engineering that ensures instant release with no penalties or demurrage.

Integrated National Network

A presence at every seaport, land border and international airport — managed from a single point of accountability.

Live-Track Operations

A fleet and warehouses under round-the-clock monitoring with real-time visibility through to final delivery.

The vision, mission and principles we work by.

03

Our Vision

To be the most trusted logistics partner in the Kingdom — the benchmark for compliant, uninterrupted supply chains that power national trade and its growth.

Our Mission

To engineer integrated logistics solutions that protect our clients' interests, eliminate delays and penalties, and move goods through every Saudi port of entry in full compliance.

— FIVE PRINCIPLES · NO COMPROMISE

01

Security

Protecting your shipment at every step.

02

Efficiency

Speed without sacrificing precision.

03

Compliance

Strict adherence to regulations.

04

Transparency

Clear status with no surprises.

05

Partnership

We grow as your business grows.

"In logistics, **time is the shipment**. And our discipline is to never lose either one."

Integrated logistics solutions, engineered for **compliance**.

04

A single system that handles the entire journey — **from factory to the customer's door** — freight, clearance and the completion of all procedures.

01 **Air, Sea & Land Freight**

Multimodal freight by air, sea and land across major shipping lines and airlines, with live tracking, project logistics for heavy equipment, and seamless integration across every mode.

02 **Customs Clearance & Compliance**

Document engineering and mastery of the FASAH platform to guarantee instant release, with proactive solutions to prevent demurrage and penalties.

03 **Smart Warehousing & Handling**

Strategic inventory management in warehouses equipped with security and surveillance systems, with specialized handling and packaging engineering for sensitive shipments.

04 **International Freight — Origin to Customer**

Single accountability from origin to delivery — we handle collection from the overseas supplier, international freight, customs clearance and final delivery to the customer's door, with one point of contact and live tracking at every stage.

We complete full **FASAH** services — your clearance in a single window.

05

A partner fluent in the FASAH system (ZATCA) — we manage your entire single electronic window service, from declaration through to release, payment and tracking.

Single-Window Clearance

Managing the entire customs transaction from one platform.

Import & Export Declarations

Creating and submitting customs declarations electronically.

Shipment Tracking · Masar

Real-time visibility of shipment location and status.

E-Payment · FASAH Pay

Settling fees and invoices via the unified SADAD system.

Truck Appointment Booking

Scheduling truck entry to ports and land crossings.

Advance Pre-Arrival Declarations

Speeding release by filing the declaration before arrival.

Customs Declaration & Delivery Order

Managing manifests and delivery orders digitally.

Customs Broker Authorization

An approved digital link to clear your shipment at the port.

Container Clearance in 24 Hours

An accelerated program for container release at ports.

Violations & Penalties

Checking and settling violations before suspension.

Release Messages for Restricted Goods

Tracking balances and release messages for restricted products.

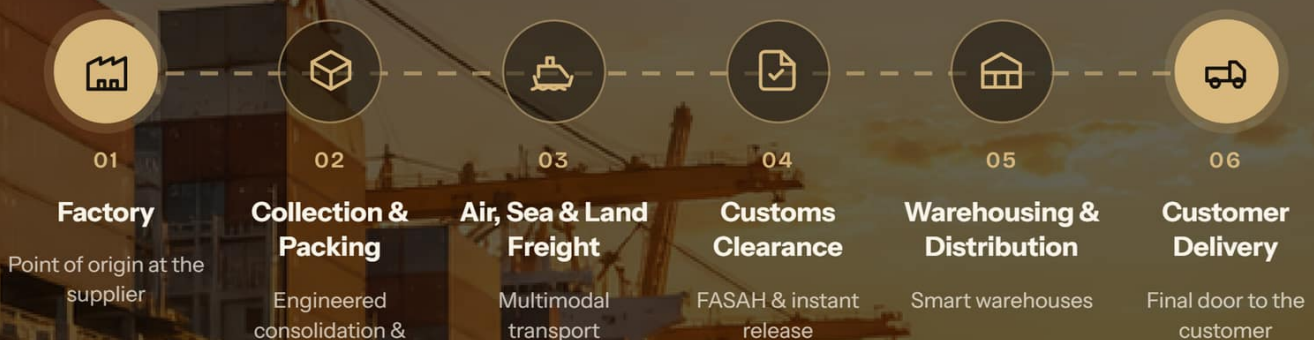

SABER Integration & Conformity

Conformity certificates linked to FASAH for release.

One connected journey — from the **factory** to the **customer's hands**.

06

A single system responsible for every step — we collect goods from the supplier's factory and handle freight, clearance and all procedures, until we place them in your customer's hands.

Single Accountability

One point of contact handling the entire journey — no fragmentation across multiple providers.

Live Tracking

Real-time visibility of your shipment's location and status at every stage of the journey.

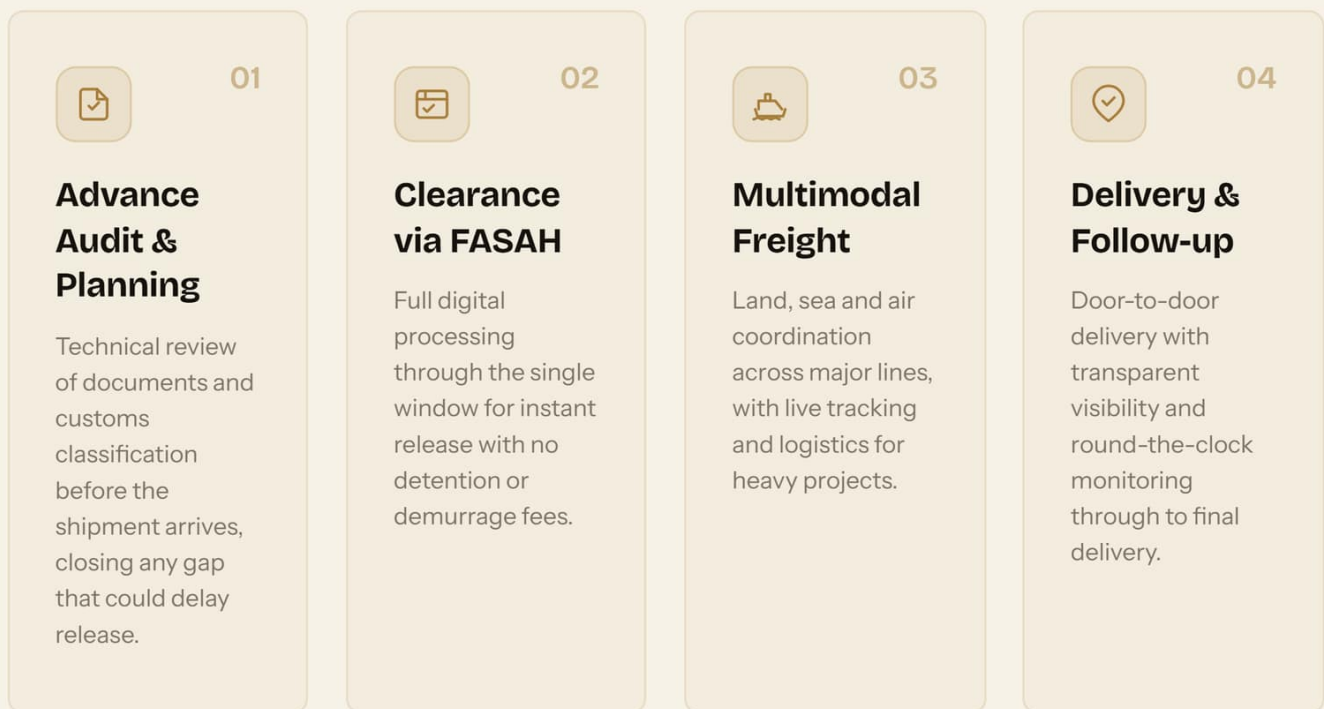

Completed Procedures

All customs and logistics procedures finalized through to final release.

How we work — **discipline** at every stage.

07

We don't just move the shipment — we engineer its path from origin to delivery, with every stage designed to remove risks **before they occur**.

— OUR DEPTH IN COMPLIANCE

Customs expertise that protects **your cost and time**.

An engineering approach that prevents penalties before they occur, rather than treating them after the fact.

FASAH Mastery

Full digital connection with regulatory bodies for instant release.

Document Engineering

Precise customs classification and advance audit that prevents detention.

Single Accountability

One team from origin to delivery — a single point of contact.

Our National Network

— OUR STRATEGIC NETWORK

Wherever goods enter the Kingdom, we are there.

Across every major seaport, land border and international airport — served by a single system accountable from arrival through to final delivery, with coverage spanning the Kingdom's entire geography.

08

- Coverage of all seaports

- Coverage of all land borders

- Coverage of all international airports

— LET'S GET MOVING

Ready to move **your** **shipment** without interruption?
